

RP-ISG602F

8-P Gigabit Industrial Switch

RP-ISG602F provides 8 Gigabit Ethernet ports which is designed for supporting standard industrial applications without complex setup to make the network truly plug-and-play, it can be used in connecting several Ethernet devices like Ethernet I/O, IP-Camera or other Ethernet switches. In addition, it provides wide power input voltage range +12 ~ + 58Vdc for application flexibility which secure equipment against unregulated voltage and make systems safer and more reliable.

With the 8 10/100/1000Mbps Gigabit Ethernet ports RP-ISG602F provides non-blocking switch fabric and wire-speed throughput as high as 16Gbps, RP-ISG602F performs wire-speed packets transfer without risk of packet loss.

With compact IP-30 standard metal case protection allows either DIN rail or wall mounting for efficient use of cabinet space.
